# Zenkraft for
Manufacturing

Fulfill Orders Faster

Fufill shipments much faster with Zenkraft. Zenkraf integrates with any standard, custom or ISV object in Salesforce. Ship one-by-one, in bulk or automatically using Process Builder.
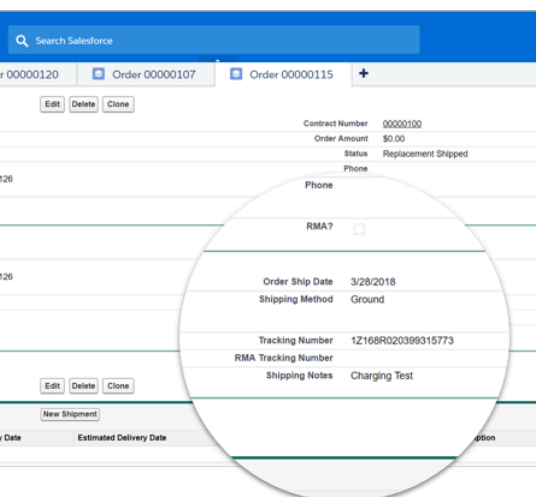

- Fully automate order fullfillment from any object.
- Book shipments when parent objects change e.g. an Order is paid.
- Connects directly to Printers and Scales include Zebra and Metler and Toledo.
- Tracking data automatically moved to parent object.

Shipment Tracking alongside Orders

📦 Checkpoints (6+)			
CHECKPOINT NU...	MESSAGE	STATUS	DATE TIME
C-0002	On FedEx vehicle fo...		1/9/2014 1:18 AM
C-0003	At local FedEx facility		1/9/2014 1:09 AM
C-0004	In transit		1/8/2014 8:26 PM
C-0005	Departed FedEx loc...		1/8/2014 4:14 PM
C-0006	Arrived at FedEx loc...		1/8/2014 1:16 PM
	View All		

Tracking data updates automatically every hour. Checkpoint data is added to Salesforce. This means you can write workflow off this data e.g. tracking emails or email customers with failed deliveries.

About Zenkraft

- 25,000+ Happy Users
- 200+ 5* Reviews on AppX
- Globally certified with carriers

Manufacturing Clients Include

TESLA YAMAHA TEXTRON

40+ carriers supported

Manage Returns

One-click generate return labels and email directly to customers from Cases.

- See un-unsed return labels in one place.
- See Return shipments that have passed warranty periods
- See all returns in transit in real-time
- Include RMA numbers on return labels for inbound warehouse scanning
